AMBROSOLI
INTERNATIONAL SCHOOL

Our Mission Statement

Ambrosoli is a community minded school that nurtures curiosity, creativity and global awareness through an inspiring, broad and engaging curriculum. Children learn to become resilient and respectful in an environment where each child is challenged and encouraged to thrive and achieve as an individual.

Our Vision

Empowering pupils to become confident, compassionate and internationally minded learners

School Year 2022-2023

A warm welcome to Ambrosoli International School whether you are a prospective parent, new parent or existing parent.

Ambrosoli prides itself on being a school which combines high academic standards with a strong, international, community feel. This has been built up over many years and is something we are keen to preserve and nurture.

Our school has been established for twenty five years and was originally known as "Scola Ambrosoli". The school catered for the large Italian community that was then in Kampala and taught an Italian curriculum.

In 2000, the school was bought by a group of parents which gave the school financial stability. With strong support from the PTA, governors and directors, the school has gained an outstanding reputation in Uganda and beyond and now has over 270 students enrolled.

Our curriculum

The curriculum at Ambrosoli is based on the National Curriculum of England together with the International Primary Curriculum (IPC) with adaptations as required, to match our international children, staff and setting.

Every child has access to a broad and balanced curriculum that includes maths, English, science, humanities (history and geography), art and design, music, physical education (PE), swimming, French, computing and personal, social health education (PSHE).

Learning is mainly through thematic units using the IPC allowing cross-curricular links to be made with the intention of providing authentic and creative learning opportunities. English and Maths lessons are linked to the themes wherever possible. Additional

experiences and skills are actively encouraged, particularly through after school clubs and out of school trips.

Our aim is to give all Ambrosoli children a rich educational experience catering for their various learning styles, needs and interests. Equal value is given to all curriculum areas in order to prepare children for the world beyond.

School premises

The school is located in Bugolobi, which is a well established, centrally located residential area. Our school grounds have been specifically designed and improved over the years to offer exciting and effective use of outside and inside learning spaces. We strive to preserve the natural elements of our environment alongside extensive facilities.
